

MB8 COIN QT WALLET INSTALLATION GUIDE

INSTALL IN 8 EASY STEPS

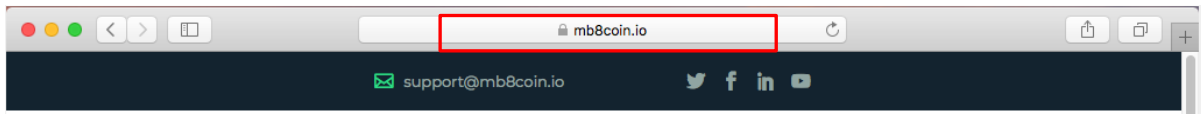

MAC OS
INSTALL GUIDE

The following guides are available at <https://mb8coin.io/mac-os-qt-wallet/>

- macOS Guide 1 - Installing QT Wallet
- macOS Guide 2 - Transferring Web Wallet to QT
- macOS Guide 3 - Securing your MB8 Coin QT Wallet
- macOS Guide 4 - Extra Guidance

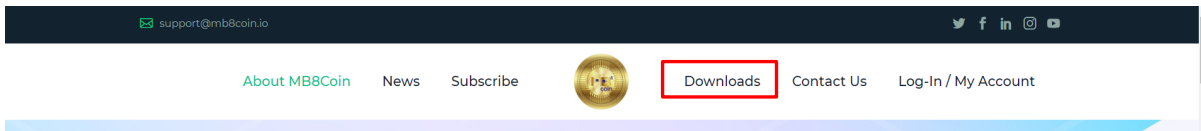

Step 1

- Go to www.mb8coin.io (If you are unable to click the link provided left, then please copy and paste this link into your URL bar as shown in red below)

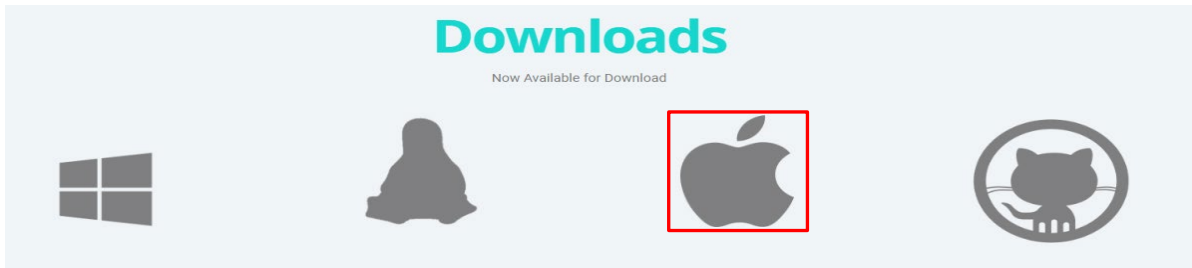

Step 2

- Click the **Downloads** tab highlighted in the picture below

Step 3

- Click the icon for the operating system your computer is using; in this example, we will use **macOS**.

Step 4

- Scroll down the page and click the Blue Download Button on the macOS QT Download to begin the download of your MB8 Coin QT Wallet (as shown on the right)
- In the top right-hand side of your screen you should now see your wallet download, click this box to open.

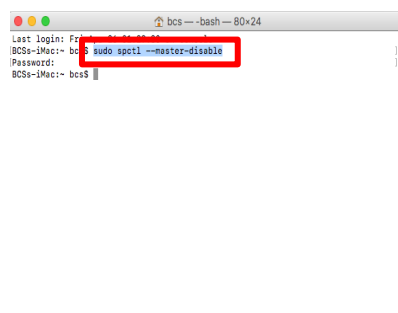

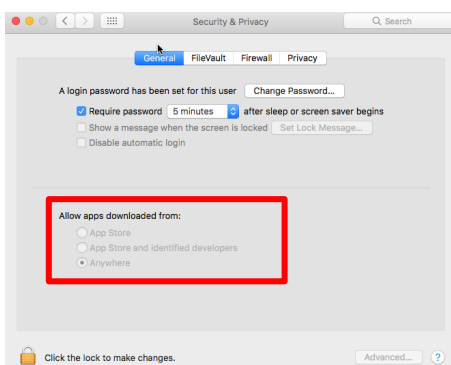

Click the Download Icon below for the MB8 Coin macOS QT Wallet

This will download to your Downloads Folder on your computer; you may move this to a location of your choice for easy launch.

Step 5

- Before attempting to mount the application you must ensure apps are allowed to be downloaded from anywhere this setting can be found under security & privacy (as shown below left).

If this option is not visible here it must be enabled through a terminal command (as shown left) enter the below then your password and the setting should be enabled.

`sudo spctl --master-disable`

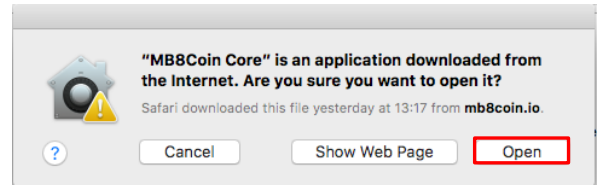

Step 6

- Once all of the above steps are completed you simply drag the MB8Coin Core file from the downloads folder to the applications folder, a bar will appear underneath it to show that it is installing you should then be able to open the wallet.

Step 7

- Upon opening MB8Coin Core, macOS will ask for permission click open and the wallet will start.

Congratulations, you have downloaded your MB8 Coin QT Wallet

Step 8 - The MB8 Coin QT Wallet - Explained
